

## COVID-19 SAFETY & HEALTH PROGRAM: SPECIFIC INDUSTRIES (6/15/20)

### What does "Specific Industries" mean?

**COVID-19 is spread mainly from person-to-person by people who are in close proximity (within about 6 feet) to others. With that fact in mind, Federal and State agencies have developed guidelines and Industry Groups have accumulated *best practices* to assist employers in preparing for a return to work.**

The following list of guidelines and *best practices* covers many of the industries that operate in Hawai'i. This list is not exhaustive; it contains information we were able to locate as of June 15, 2020. We will alert you as we find guidelines and best practices for other industries.

Industries highlighted in **orange font** are listed on the State's Economic & Community Recovery Navigator website. You can find financial and other business-related information and resources for your industry on that website.

Links with an asterisk (\*) have been formally retracted by the White House or respective agency, but will direct to still-active pages with useful information.

**The following list aggregates guidelines provided by the Centers for Disease Control and Prevention (CDC), the Occupational Safety & Health Administration (OSHA), the Hawai'i Department of Health (HDOH), and the Hawai'i Economic & Community Recovery Navigator. The list is not legal or medical advice. Check with your legal counsel before finalizing your procedures. Note the guidelines and *best practices* frequently change so you will need to update on a regular basis.**

## **AGRICULTURE & FOOD PRODUCTION**

➤ **[Meat and Poultry Processing Workers and Employers](#)**
