

## COVID-19 SAFETY & HEALTH PROGRAM: GENERAL GUIDANCE FOR ALL BUSINESSES

### What are General Guidelines?

COVID-19 is spread mainly from person-to-person by people who are in close proximity (within about 6 feet) to others. With that fact in mind, Federal and State agencies have provided general guidelines on health and safety practices for different types of work environments.

The following list of resources contains guidance appropriate for all businesses, including small businesses.

The following list has been assembled to provide assistance to all employers. The list aggregates guidelines provided by the Centers for Disease Control and Prevention (CDC), the Occupational Safety & Health Administration (OSHA), and the Hawai'i Department of Health (HDOH). The list is not legal or medical advice. Check with your legal counsel before finalizing your procedures. Note that guidelines frequently change so you will need to update on a regular basis.

## GENERAL GUIDANCE

- OSHA Guidance on Preparing Workplaces for COVID-19

<https://www.osha.gov/Publications/OSHA3990.pdf>
